Re-Open Dentistry Plan

April 28, 2020 – Saskatoon, SK: The College of Dental Surgeons of Saskatchewan (CDSS) acknowledges the Provincial COVID-19 Leadership Team and all Saskatchewan residents working together to set the stage for Re-Open Saskatchewan. ***‘The CDSS plan to Re-Open Dentistry on May 4, is in lock-step with the government’s Re-Open Saskatchewan Plan, a methodical, cautious and phased-in approach to slowly and responsibly restart dental care in Saskatchewan’*** says Dr. Mitch Taillon, Associate Registrar, CDSS.

Dental offices will maintain provincial restrictions on social distancing, gatherings and implement CDSS Pandemic protocols. Taillon says, ***‘Dental care will be at a different pace and your dental office will look a little different. But rest assured that those people under all that personal protective equipment are still the same people you have come to trust for safe, quality dental care for you and your family. During this time of world-wide shortage, your Saskatchewan dentists are working diligently to source the required PPE as described in the [CDSS member alert](#)’.***

We are all in this together and we will be there on May 4 at the door to welcome you back.
